

MOST IMPORTANT

WEEK 2: Discovering God's Highest Priorities

INTRODUCTION

Most of us are big on trying to establish a prioritized order of importance to our lives. There's a lot to factor when determining what occupies the highest position followed by the trickle down of where our time and resources are spent. The big question is, what is most important to God with respect to our lives? Perhaps we could benefit from understanding what God considers to be most important.

DISCUSSION QUESTIONS

- 1) Read Proverbs 4:23 and discuss how you personally define your "heart".
- 2) We live in a culture and time that says, "follow your heart" but we know from the Word of God our hearts are deceitful. Share experiences when you have chosen to follow your heart and it led you astray. What has God taught you since?
- 3) "Our hearts are followers. If you put more time and resources into a certain area, your heart will follow." What areas are you being led to invest your time and resources in and why? Do they line up with God's plan and purpose for your life?
- 4) Read Psalms 139:23-24. Have you wholeheartedly given the Lord fully permission to search all of your heart? Why or why not? What area do you believe the Lord is wanting you to change or improve within your heart?

Next Steps

Set one new year goal/resolution in respect to Proverbs 4:23
